

STAR TRAC®
MADE TO PERFORM

Star Trac® is with you and your members for every step. We go beyond providing cardio products by developing innovative user-oriented solutions that help mold lifelong health and fitness habits.

WHAT WE'RE KNOWN FOR

- The brand **used by enthusiasts**
- Great for **tracking**
- Makes products that are **fun to use**
- A **reputable, trustworthy** company

OPENHUB CONSOLES

Our affordable, flexible, innovative OpenHub consoles are available on every piece of 10 Series and 8 Series Star Trac. They offer best in class entertainment, fitness tracking and asset management solutions. With the ability to select just the features you want, and add new features in the future, this open platform offers you the ability to have exactly what you want, when you want it.

UNMATCHED USER COMFORT

Whether it is our signature personal fans, the shock absorbent Soft Trac® technology in our treads & pedals, or the convenience of accessible water bottle holders and media trays, Star Trac cardio will keep your members happy with its commitment to user comfort.

IMPRESSIVE & UNIFIED AESTHETIC

The cardio section has never looked so appealing. All Star Trac Cardio is styled with a sleek, modern look, with each additional unit complementing the section as a whole. With their shared look and OpenHub interface, members will feel at home on whatever machine they choose to use.

CONNECTED PERFORMANCE

REIMAGINED 15" & 19" OPENHUB MODELS AVAILABLE NOW

OPENHUB CARDIO CONSOLES

Our design philosophy for OpenHub was simple: provide a flexible platform that connects expert partners and provide solutions for every customer. We walked away with a smart, affordable and configurable solution. Available on Star Trac® and StairMaster® cardio equipment, OpenHub comes packed with entertainment, fitness tracking, group display and asset management solutions. Whether you are looking for embedded TV, streaming video, 800/900mhz receivers or an add-on PVS, it's all possible. The best part is, you add (and pay for) only what you want, when you want. New 15" and 19" embedded consoles have been enhanced with beautiful new HD touch screen displays, Wi-Fi and Ethernet internet connectivity, exciting new fitness training programs and integrated streaming, news and social apps. All OpenHub consoles can connect with leading technology and third-party apps to deliver connectivity solutions for users to easily track, save and share their workout results. The future of club connectivity is OpenHub.

OPENHUB™ PROGRAMS

EXCLUSIVE HIIT PROGRAMS

OpenHub embedded consoles offer an exciting and innovative HIIT program developed by World Record Holder, Olympic Trials Qualifier and Master Instructor, Sonja Friend-Uhl. Interval training has been clinically proven to provide amazing benefits, such as reducing blood pressure, glucose sensitivity and body fat, while improving aerobic fitness and muscular power. A version of the program was created for each piece of cardio equipment, with time-efficient workouts that take only 20 minutes to complete and can be adjusted to work for any fitness level. Variations allow for hundreds of different workout combinations, keeping participants engaged as they progress through the ranks to higher effort levels. Get maximum benefits from your cardio workout with 90% less training volume and up to 67% less time commitment compared with other interval training protocols.

RUNTV

RunTV is an immersive fitness entertainment experience designed to help motivate you to get the most from your exercise. Gain access to a curated collection of virtual environments to run through and empowering videos to watch as you workout. Take on the Tour de France, watch videos on improving your technique, get inspired by stories of extraordinary human feats, or lose yourself in a feature film. Whatever you choose, RunTV will empower you on your journey.

ENTERTAINMENT OPTIONS

STB Ready Consoles

Connect to IPTV, satellite or cable services with our new STB Ready embedded cardio screens. The connection is seamless and user control of channel and volume is handled via integrated controls on the display. No add-on keypads required. Any STB in the world. Simple.

Leaderboard Connectivity

Get visual feedback, coordinate engaging competitions and motivate members by connecting OpenHub to MyZone or similar leaderboard systems.

Wireless Audio Receiver

Optional Integrated 800/900 MHz wireless receivers have worldwide system compatibility and provide audio from any ceiling or wall mounted TV. *(Requires wireless audio transmitter)*

Add-on PVS Kit

Our 8 Series LCD, 10" display units and all of our S Series cardio products are pre-wired to accept an add-on 15.6" HD Personal Viewing Screen. The PVS mounts seamlessly to the product and 8 Series cardio includes an integrated control keypad inserted into the front of the cardio display for easy control.

10 & 8 SERIES SPECIAL FEATURES

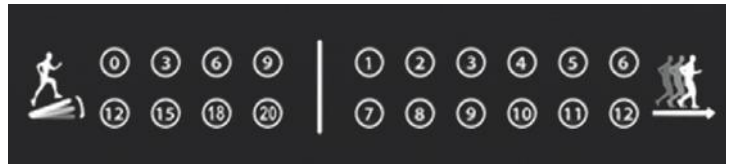

Apple GymKit Connectivity

GymKit allows OpenHub LCD and new 15"/19" consoles to connect directly with Apple Watch for real-time data sharing between the equipment and watch using NFC technology to allow a simple tap to pair connection.

Quick Key Selection

Quickly adjust speed and incline with the easy Quick Key selection on the 8-TRx treadmill. Members can quickly navigate the treadmill controls and adjust their workout with a row of large buttons on the LCD console. This user-friendly feature allows for easy adjustment to the workout while in motion.

Asset Management

ECOFIT® asset management solutions let you see beyond the basics of which machines are most used – you'll get insights that show you if you should rotate machine placements to improve maintenance scheduling, identify and plan preventative maintenance to ensure equipment is available to members and much more.

Streaming from Personal Devices

Our 15"/19" embedded console and our PVS add-on displays for 8 Series allows users to stream content from their personal device to the screen. This requires an HDMI connection to our integrated HDMI port using a cable appropriate for a user's personal device, be it Apple®, Android™ or other. *(Cables not included)*

Hub Cap - Optional Tablet Holder

For viewing content on a personal device while exercising, we also offer an optional tablet holder that can be added to the top of any LCD or 10" OpenHub™ console. Able to hold tablets up to 10.1" diagonal screen size.

FEATURED

BUILT WITH:

HexDeck
Technology

FreeRunner™ 10TRx

- Revolutionary new patented HexDeck technology features an aluminum running deck, supported by a proprietary, hexagonal polymer suspension system that creates a treadmill with unprecedented cushion and responsiveness
- 20% max incline | 15 mph (24 kmh) max speed
- Star Trac's popular personal fan for comfort
- Integrated USB port provides charging capability for user devices
- User weight capacity of 500 lb (227 kg)
- Contact and telemetry heart rate
